

Camden Phalen

EXPERIENCE

Software Engineer II, Care/of / November 2020 – Present

Contributed to a complete rebuild of Care/of's front end in Next.js, leading development of multiple heavily trafficked pages and architecting components used sitewide. Performed full-stack roles as needed, making updates to endpoints built with Rails. Worked to build out collaborative processes and internal tools.

Mobile Engineer, Quadio / March 2020 – September 2020

Built a streaming and social networking mobile app at a fast-moving startup with React Native, Redux, and Swift. Contributed to a quickly evolving codebase as part of a small team of engineers.

Engineer, Upstatement / November 2018 – March 2020

Led development of multiple websites from start to finish, ranging from Shopify stores to complex applications built with React. Research and evaluated various technologies to make architectural decisions for projects. Worked closely with teammates to solve clients' problems through design and software development.

Project Lead, Scout Studio / November 2017 – August 2018

Managed and mentored a group of designers and developers to design and build a marketing website and e-commerce platform for a Boston-based nonprofit. Contributed to UX design and full stack development of the app, which was built with Node, Express, MongoDB, and React.

Software Engineering Co-op, HubSpot / July 2017 – December 2017

Worked with a team of other engineers to implement new design styles on HubSpot's content management system. Rebuilt and modernized HubSpot's Backbone.js template picker app from the ground up with React and Redux.

Software Engineering Co-op, Alignable / January 2016 – June 2016

Implemented a variety of new features and bug fixes on a Ruby on Rails-based social networking application on both the front end back end. Participated in discussions on the company's future trajectories and initiatives.

VOLUNTEER

Tech & Photography, Brain Arts / December 2018 – March 2020

Built multiple headless CMS-based websites with Next.js, Gatsby, and GraphQL for a volunteer arts organization. Managed a team of photographers to produce consistent high quality images at the organization's events.

EDUCATION

Northeastern University / College of Computer and Information Science

Bachelor of Science in Computer Science & Interaction Design, May 2018
GPA: 3.70

TECH SKILLS

Front End & Mobile

React / Next.js
Redux
React Native
SCSS

Testing & Tools

Jest
Cypress
Webpack
Storybook

Back End

Node / Express
Ruby on Rails
