Camden Phalen

EXPERIENCE

Mobile Engineer, Quadio / March 2020 – September 2020

Built a streaming and social networking mobile app at a fast-moving startup with React Native, Redux, and Swift. Contributed to a quickly evolving codebase as part of a small team of engineers. Regularly collaborated with designers and product managers to implement new features.

Engineer, Upstatement / November 2018 – March 2020

Led development of multiple websites from start to finish, ranging from Shopify stores to complex applications built with React. Research and evaluated various technologies to make architectural decisions for projects. Worked closely with teammates to solve clients' problems through design and software development.

Front End Engineer, HubSpot / September 2018 – November 2018

Made fixes and improvements to HubSpot's page editor, a powerful and widely used application. Increased reliability of the editor by building front end testing suites with Jest and Selenium.

Project Lead, Scout Studio / November 2017 – August 2018

Managed and mentored a group of designers and developers to design and build a marketing website and e-commerce platform for a Boston-based nonprofit. Contributed to UX design and full stack development of the app, which was built with Node, Express, MongoDB, and React.

Software Engineering Co-op, HubSpot / July 2017 – December 2017

Worked with a team of other engineers to implement new design styles on HubSpot's content management system. Rebuilt and modernized HubSpot's CMS template picker app from the ground up with React and Redux.

Software Engineering Co-op, Alignable / January 2016 – June 2016

Implemented a variety of new features and bug fixes on a Ruby on Rails-based social networking application on both the front end back end. Participated in discussions on the company's future trajectories and initiatives.

VOLUNTEER

Tech & Photography, Brain Arts / December 2018 – March 2020

Built multiple headless CMS-based websites with Next.js and Gatsby for a volunteer arts organization. Managed a team of photographers to produce consistent high quality images at the organization's events.

EDUCATION

Northeastern University / College of Computer and Information Science

Bachelor of Science in Computer Science & Interaction Design, May 2018
GPA: 3.70

TECH SKILLS

Front End & Mobile	**Back End**
Javascript	Node / Express
React	GraphQL
React Native	Rails
Swift	MongoDB
